Zero to 360

Orthodontic Grad Special

Launch your practice with our **Zero to 360** program and get off to a great start. During the onsite installation, your practice management software will be integrated with other mainstream applications to promote maximum performance. We'll make recommendations to enhance practice image and design a future plan for expanding your technology when the time is right.

Our consulting team will guide you through the maze of putting administrative systems in place. We'll organize your front office systems, forms, documents and day-to-day routines that will allow you to move forward instantly. We'll coach you in hiring staff; create job descriptions, and accountability systems. We'll help you understand the business of orthodontics and teach you to interpret management information.

FAQs

Q: *Why Dell?*

A: Extensive dependable product line with proven support history offering on site service options from same day to next business day

Q: *Why 64 bit vs 32 bit software and hardware?*

A: Today's memory intensive applications require an operating system without the 4 GB limitation, creating a solid infrastructure for you to use today as well as tomorrow

Q: *How does performance compare?*

A: 64 bit computers process information 30-40% faster -- even greater performance in a remote office environment

Q: *How safe is my data?*

A: RAID 5 protection, redundant power supplies, redundant network cards for "load balancing" and fault tolerance

Q: *Why impact360?*

A: A solutions-oriented provider with technology, consulting and implementation specialists all working together to design and deploy a strategic plan with continued support using our 360Care program.

Q: *Do I need a consultant?*

A: Our consulting and implementation team brings proven organizational systems and protocols, documents, forms/letters, and collateral materials to create a foundation for growth and performance.
